Revenue by month, thousand dollars

Every region reported on time. The north opened its new store in May and the west moved half of its sales online; the south stayed flat, as planned. The chart on the right repeats the monthly revenue at a smaller size, so the text flows around it the way it does in the editor.

Every month of the quarter beat the same month of last year.

Next meeting: 15 October, after the third quarter is closed. Please send your region's numbers two days before, so they can be checked against the ledger.
